

TAPRAN®

FEATURES AND BENEFITS

High Surfactant Oil Concentrate
Water Conditioning Agent ■ Deposition Aid

- High quality concentration of emulsifiers and methylated seed oil.
- Flexible across a broad range of herbicides.
- Made with highly refined soybean oil for enhanced performance, stability, and mixing.

PRINCIPAL FUNCTIONING AGENTS

- Methylated seed oil, soy oil, surfactants, water conditioning agents and constituents ineffective as spray adjuvants.....100%

APPLICATION DIRECTIONS

- Use at 2-4 qt/100 gal with herbicides that can utilize or require an MSO adjuvant.
- Mixing and Compatibility:
Compatible with most tank mix partners and fertilizers.

CROPS

Tapran® is a multi-functional, high-efficacy adjuvant that helps activate herbicides for better performance against tough-to-control weeds, including later season weeds. Its unique formulation includes tallow amine which acts as an emulsifier and surfactant to help herbicides spread over the leaf for better absorption.

Tapran contains deposition aids that minimize off-site spray droplets and improve canopy penetration and plant coverage.

Tapran contains a highly refined soybean oil that improves the performance and handling characteristics versus traditional high surfactant methylated seed oil formulations.

PACKAGE SIZE | 2x2.5 gal | 275 gal
