

OKABASHI

Since 1984, Okabashi Brands has been a family owned and operated shoe company in the small town of Buford, Georgia.

Our shoes have garnered a loyal following with over 35 million pairs of shoes sold. Today, over 99% of American-worn footwear is made abroad. We are proud to be in the 1% that has chosen to stay and thrive in the USA.

USED SHOES ARE
RECYCLED AND
READY FOR THEIR
NEXT ADVENTURE.

RECYCLABILITY

Our compound is fully recyclable, allowing us to operate our factory at near-zero waste. All scraps and defective shoes are ground back up.

Well-loved shoes may also be recycled at facilities accepting #3 or sent back to Okabashi for recycling

ALL SHOES ARE
MADE LOCALLY
IN BUFORD, GA.

MADE IN THE USA

Our employees work in a safe environment, free from dangerous equipment or hazardous chemicals.

Our near-zero waste processes don't pollute the environment or fill landfills.

Our doors are open to you at any time for an impromptu factory visit.

MATERIAL

Our material is safely manufactured in the USA and completely Prop 65 & REACH compliant.

This proprietary blend is phthalate free; instead we use a renewable alternative derived from common soybeans.

The durability of our compound far exceeds a standard EVA foam – no more throwing away worn-out flip flops after a single season.

SHOES ARE SENT
ON THEIR FIRST
ADVENTURE.
